

Hyperlinks are for viewing PDFs only  
(not required from Biddles)

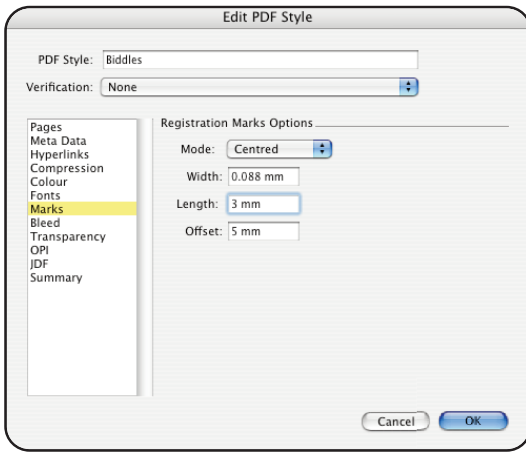

Compression should be set as shown,  
this ensures your PDF file is not too large without  
compromising on the output quality

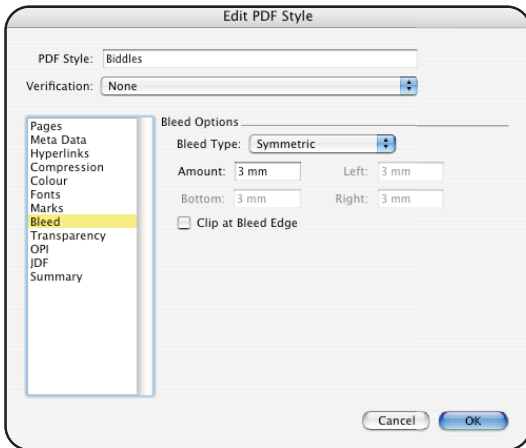

Use the colour pane to specify whether to create a  
mono/cmyk/spot output NEVER print as separations,  
we separate colour at RIP stage.

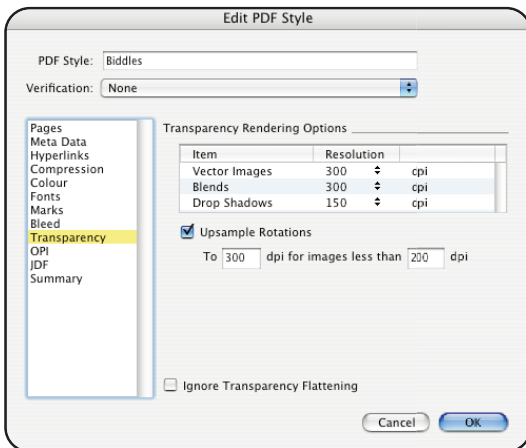

Please ensure the 'download all fonts' tab is selected.  
This ensures your fonts will be embedded within your  
PDF output. If they are not embedded, your PDF will  
not be usable for print.

Use the Marks pane to specify the positioning, width and length of registration marks in the PDF file.  
Please set as shown

Bleed should be set at least 3mm on all edges

Use the Transparency pane to turn transparent on or off, and to control the resolution of flattened items.

Click OK, Click Save.

If you are using previous versions of Quark Xpress you can create a PDF by printing to file in the print menu, then use distiller to create you PDF.  
If you have any queries please call Eve Limeburner on 01553 816123 email: eve@biddles.co.uk
